## SKILLS

Handled a 5G Tower Project from **Huawei** that was given with a pressured deadline (1 week)

Familiar with **HTML** and **CSS** that makes me aligned into becoming a web development field such as Web Structuring and Responsive Design

**Product pitched** in an audience consisting of Tech Leaders and CEO's. It made me confident and learned to see the audience as potential consumers

Received proper training and certification with the **International Cyber Security Institute**. Clicking the links will prompt the certificates

Has knowledge and experience in **designing** circuits and electronics by trial and error, and can understand circuit flow by eye

# Wilhelm Noble

## Electronics & Communications Engineering | Junior Web Developer

Do you want to **improve** your applications via troubleshooting? Are you having a hard time finding someone you can depend for support on customer complaints? I am Wilhelm, and I might be the suitable guy for the job. I am an ECE with a certification of **Front End Engineering** from Codecademy and I look forward to get hands on working with the team
